You Never Said Goodbye.....

You never said I'm leaving

You never said Goodbye

You were gone before I knew it

And only God knew why

A million times I needed you

A million times I cried

If love alone could have saved you

You never would have died

In life I loved you dearly

In death I love you still

In my heart you hold a place

That no one could ever fill

It broke my heart to lose you

But you didn't go alone

For part of me went with you

Message from the President

Over the past year, the Museum worked on a "Sustainability Policy and Guide for Greening the Museum". I'm excited to present (below) the Museum's Sustainability Vision and Guiding Principles from our museum's new **Sustainability Policy** – believed to be the first of its kind for a New Brunswick museum.

Its aim is:

- To help us save energy and water; recycle and compost more; and generate less waste
- To provide clear direction on what we can do, and offer best practices for us to aspire to
- To inform and educate, so that sustainability becomes a part of our everyday museum culture

Sustainability is consistent with our museum's purpose and mission. Trees and forests aren't just important to our economy; they also play a critical role in our local and global environment. By implementing the policies in this guide, we can be confident we're doing our part to create a sustainable, prosperous future. Let's work together to make our museum a showcase of sustainability!

Phyllis Robinson, President, Central New Brunswick Woodmen's Museum

Our Sustainability Vision

The Central New Brunswick Woodmen's Museum is a model of efficiency, sustainability and environmental responsibility for our visitors, youth, staff, volunteers and community.

We strive:

- To reduce our consumption of energy, water and other resources by practicing efficiency in all we do
- To minimize solid waste through responsible purchasing, comprehensive recycling and composting
- To purchase goods and services from sustainable sources and suppliers
- To educate our visitors, staff, volunteers and community about sustainability and environmental best practices through our actions and exhibits
- To foster a culture of sustainability and continuous improvement among our staff, volunteers and community
- To communicate our progress and success stories to our visitors, staff, volunteers and community
- To serve as a positive and motivating example to other museums and community institutions.

Our Guiding Principles

As a not-for-profit, community-based organization, we will work within our financial means. We will focus upon and prioritize practical, realistic actions that will make the most significant difference.

The museum's primary mission is to showcase the economic and environmental importance of forests, past, present and future; our activities should be consistent, either directly or indirectly, with this mission.

Sustainability is a journey as well as a destination; we are committed to learning, taking action and leading by example.

Education is one of our core functions, and is most effective when people are engaged and having fun.

We aspire that this Sustainability Policy be applied to all activities and events on the museum site, including special events hosted on our premises.

We welcome the ideas, creativity and other resources of our staff, volunteers and community.

We partner and collaborate wherever possible for ideas, best practices, funding and other resources.

We are committed to integrity, accountability, transparency and continuous improvement.

Our team members are most engaged and productive when we maintain
